

MOM's is truly committed to the call for action as outlined by the Common Vision for Sustainable Seafood. This is evidenced by our stand to only offer only "green" seafood choices to our customers and supports our company's mission to protect and restore the environment. As a grocer, MOM's has been at the forefront of many environmental issues. We were one of the first grocers to switch to 100% Wind Power, and to discontinue the use of plastic shopping bags in our stores. We are excited to help lead the way on this very important issue of Environmentally Sustainable Seafood.
